RESUME TIPS:

- Begin each bullet with an action verb: https://www.livecareer.com/quintessential/action-alpha

- Keep your resume to one page in length.

- Be sure to include accomplishment language. To help you, consider the following:
    - Name three accomplishments about the project that make you proud.
    - Did you complete a particularly challenging assignment? Participate in a solution that was unique, enhanced efficiency, saved time or created a better experience for the end user?
    - Did you receive praise, recognition or pats on the back from your colleagues and teachers?

    - Another quick example: http://www.techrepublic.com/blog/career-management/it-resume-list-accomplishments-not-responsibilities/
    - Use this formula: Result -> Action -> Situation to formulate your accomplishment bullets.
